

Measuring the impact of therapy, psychology and other services on pupil outcomes and achieving Best Value and High Quality Provision

Following the recent highly successful NASS conferences we are now delighted to offer our Group Training, Support and Networking Package for Schools. This will include both national and regional training/support opportunities, website access through AHC to practical resources, case studies, links to best practice, opportunities to raise issues and receive comments from other professionals and networking with other schools and services. This is a great package that will ensure we are 'ahead of the game' both regionally and nationally. Our work has attracted national attention so schools as part of the network will be at the forefront of developments and recognised as such.

The first of the regional meetings for those who take up the package will be held on:

10th July 2013 (North regional meeting) at:

The Seashell Trust,
Royal School Manchester
Stanley Road
Cheadle Hulme

11th July 2013 (South regional meeting) at:

Priors Court Training and Development Centre
